

**Aquatron** is pleased to introduce the **Saltron Retro**, a salt chlorine generator for in-ground and above ground swimming pool.

This self-contained purification system utilizes a natural process to generate pure chlorine. The electrolytic process uses a very low concentration of salt (less than a teaspoon per gallon) and generates free chlorine. The chlorine continuously kills bacteria and algae and then reverts back to salt. This indefinite cycle leaves the water feeling silky, soft, refreshing and sparkling clear. Saltron is easy to install, economic, and fully automatic.

Power Supply Unit

# Saltron™ Retro

With Saltron Retro you'll see the benefits of natural chlorine:

- No more purchasing, transportation or storage of chlorine.
- No more skin irritations and itchy red eyes.
- No more faded bathing suites.
- No more harsh chemicals in your swimming pool.

## A step above the competition:

- **Easy installation** on new and existing pools - no plumbing required.
- **Programmable digital timer** to adjust chlorine output.
- **LED indicator lights** illuminate for easy salt level reference.
- **Commercial grade titanium** cell plates coated with precious metals.
- **Reverse polarity** keeps cell clean and prevents scaling.
- **Clear cell housing** allows user to easily inspect cell for scaling.
- **Switch-mode** power supply supplies smooth current to cell resulting in longer lifetime.
- **Critical fault protections** with automatic shut-down.
- Helps keep a consistent **Free Chlorine residual**.

Preparing your pool for a Saltron system is easy. Simply bring the salt level to 3,000 ppm and begin sanitizing.

## Saltron Retro

**Pool Size:** Up to 20,000 Gallons  
**Input:** 115 VAC, 50/60 Hz, 1.5 AMPS  
230 VAC, 50/60 Hz, 0.75 AMPS  
**Output:** 20 VDC @ 3 AMPS  
**Chlorine production:** 0.4 lbs. / day  
8 grams / hour  
**Dimensions:** 300mm x 230mm
